

9 March 2004

MEMORANDUM FOR THE RECORD

From: Code N8N (C. Mueller)

Subj: USE OF S-200 BIOREMEDIATION PRODUCT FOR OIL SHEEN

Ref: (a) PHONCON (Code N8N) C. Mueller/(RIDEM) Jim Ball of  
9 March 2004

1. In accordance with reference (a), the following is approved: S-200, if on the NCP Product Schedule, can be used to remediate small sheens on water as long as the product does not contain any detergents or surfactants that can act as a dispersant.
2. RIDEM recommends that contaminated soil be mitigated by removal vs. by usage of a bioremedial product.
3. Any questions regarding this matter should be directed to Ms. Cornelia Mueller of the Environmental Protection Department at (401) 841-7561.
