RE: Hydrocarbon Bioremediation S-200

Dear Mr. Stoll:

This letter is in response to your letter dated April 22, 2004 seeking approval for the use of your product known as Hydrocarbon Bioremediation S-200.

We have reviewed the material provided and find no reason, at this time, to disallow the use of your product. This approval of the use of your product in West Virginia, however, should not be construed as an endorsement of the product or a judgment of its effectiveness. The product's effectiveness will, of course, be determined over time.

We do ask that you make available to this office with a list of locations where the product will be or is being used so in West Virginia that we may evaluate its effectiveness and its environmental impact for ourselves, if we chose.

Please contact Carroll Cather of my staff at 1-304-558-5989 if you have questions.

Sincerely,

M. Michael Dorsey
Assistant Director
Office of Waste Management
